**Hebrew Psalms and the Utrecht Psalter** Pamela Berger, 2021-05-14 In a major departure from previous scholarship, this volume argues that the illustrations in the famous and widely influential Utrecht Psalter manuscript were inspired by a late antique Hebrew version of Psalms, rather than a Latin, Christian version of the text. Produced during the early ninth century in a workshop near Reims, France, the Utrecht Psalter is illustrated with pen-and-ink drawings in a lively style reminiscent of Hellenistic art. The motifs are largely literal renditions of words and phrases found in the book of Psalms. However, more than three dozen motifs cannot be explained by either the Latin text that accompanies the imagery or the commentaries of the church fathers. Through a close reading of the Hebrew Psalms, Pamela Berger demonstrates that these motifs can be explained only by the Hebrew text, the Jewish commentary, or Jewish art. Drawing comparisons between the "Hellenistic" style of the Psalter images and the style of late antique Galilean mosaics and using evidence from recent archaeological discoveries, Berger argues that the model for those Psalter illustrations dependent on the Hebrew text was produced in the Galilee. Pioneering and highly persuasive, this book resolves outstanding issues surrounding the origins of one of the most extensively studied illuminated manuscripts. It will be mandatory reading for many historians of medieval art and literature and for those interested in the Hebrew text of the book of Psalms.

Plastic Cameras Chris Gatcum, 2012 In these days of high tech, high spec digital cameras even the rankest amateur can capture technically professional-looking images - but there's a growing trend of happy-go-lucky snappers who yearn for a more simplistic approach, a return to a time when photography was perhaps less predictable. Decidedly low-tech and highly idiosyncratic plastic, or 'toy' cameras such as the original 1984 Lomo Kompakt Automat (which spawned the term 'Lomography'), the Diana and the Holga, and the recently introduced Blackbird, Fly enable them to create images that - while not technically perfect - display a quirky sense of fun, spontaneity, and creative artiness. Whereas digital cameras and high spec film cameras boast the technology to eradicate undesirable optical 'faults' such as vignetting, barrel and

pinchusion distortion, converging verticals and noise, the owners of their cheaper cousins – which have only rudimentary plastic lenses – relish the manifestation of such visual aberrations in their pictures. Colors are typically richly over-saturated, exposure frequently off-kilter, focus dreamily soft. Plastic cameras lack light meters, autofocus, auto film advance, adjustable shutters and digital sensors, notoriously leak light onto the 120 or 35mm roll film they employ, and there are some wacky versions: flamboyant wide-angle fish-eyes, stereo cameras with two lenses and two flashes, pinhole cameras that don't even possess a lens, and multi-lens cameras that create negatives combining up to nine images on a single 35mm frame.

Circe mengasah bakatnya dan bertemu banyak tokoh paling termasyhur dalam mitologi, di antaranya Minotaur, Daedalus dan Icarus, Medea, dan Odysseus yang lihai. Tetapi wanita yang hanya sendirian akan menghadapi banyak bahaya, dan Circe tanpa sengaja membangkitkan murka manusia dan dewa-dewa, sehingga mesti berhadapan dengan dewa Olympus yang paling menakutkan dan pendendam. Untuk melindungi apa yang paling dicintainya, Circe harus mengerahkan seluruh kekuatannya dan memilih dengan tegas, apakah hendak berpihak kepada dewa-dewa yang telah melahirkannya, atau manusia yang telanjur disayangnya.

As the aircraft climbed through 16.000 ft, the Captain contacted the company Operations Centre and reported a Take-off Configuration Warning and an Equipment Cooling System problem.
